PROVINCE OF THE EASTERN CAPE

Ukhanyo Farmer Development

The project seeks to address a transformed and inclusive agricultural industry in the Eastern Cape being led by young people with passion about farming.

The Ukhanyo Farmer Development has social media pages like Facebook, Instagram where one could find all the services that are being offered by these young farmers that are situated in Mthatha

The UFD has been contracted by DRDAR with a R4,5 million

The Ukhanyo farmer development is based in Mthatha

PROVINCE OF THE EASTERN CAPE

Ukhanyo Farmer Development

These is a project that was developed by a young person Sinelizwi Fakade which is its main focus is farming special grain. It is supported by the department of DRDAR and other private companies

To support about 600 farmers who have planted crops in 800ha

The program has created many job opportunities for the people of mthatha that gave been employed by his development giving them experience in farming.

The departments target market are farmers for them to be able to produce health livestock as they will sell them to their market which is abattoirs for them to make profit out of their livestock.
